Dear Mr. Litwin,

In response to your 2/20, please note that the post office has renumbered the rural routes and as Post Mortem says our address is now Rt. 12.

There is no material on the autopsy of the NAAs subsequent to Post Mortem. I am still in court in my efforts to get what is still withheld.

There is no forensic pathologist who has helped with my work. Wecht refused when I asked him on the ground he was making so much money he could not afford to.

There is no writing of any of these medical people I can tell you can be trusted, including Wechts, which is self-contradictory.

Sorry thiscan serves only negative values for you but that is the reality.

Sincerely,
